Hello Everyone,

I guess the old saying is still correct, "its nice to leave, but its nicer to be home". Sue and I are glad to be back home and shoveling snow again. Well maybe that last part about the snow isn't true!

As I look forward at the Advanced Timing we sure have another full schedule of great looking events for the upcoming tour season.

A big THANK YOU to all the people that worked on and at the club swap meet. It was your help that made this swap meet another success. Thank you to Vicki Cooper and Jeana Angelini for all your hard work in coordinating and running the swap meet.

Please remember the newsletter is going to email delivery only as of January 1, 2024 so if you haven't yet, please get your email address to Dave Huenink, the club secretary.

Thanks to Mark for finding the last indoor event prior to touring. It sure was an interesting presentation on the gas station evolution in Wisconsin. I bought a copy of the book *Fill'er Up* at the presentation and it is very interesting and informative, so much so I read it cover to cover in a less than a week.

If you have an idea for an event and it looks like all monthly events are full, a second tour can be added or an impromptu tour can be done quickly emailed out to everyone. When I spent time with the Model A Club in Georgia, I learned they have so many ideas and events, that they vote on which one they want to do for the month. So the more events the better!

As we move into the touring season try to attend the events if you are able, its always fun to be with the group and always is a good time.

Have a nice Easter everyone.

See ya on the road

-Mike

On the next 2 pages you'll find the letter the club received from Pasadena High School Model A Club. See note below followed by next two pages.

First, we wish to thank you for your support over the years! We at Pasadena High School love and respect the Model A and look to continually enhance our knowledge of this delightful hobby.

Our hope is to share our club with as many Model A'ers as possible and to encourage participation in our raffle. We have prepared a 15-minute video noting our instruction and hands-on activity which could make a wonderful program for an upcoming monthly meeting. Access it on Youtube.com and once there, enter the title "Pasadena High School Model A Ford Club Chapter 2." Additional details are enclosed in our enclosed newsletter. Please email us for electronic copies at [pmsmafrc@gmail.com](mailto:pmsmafrc@gmail.com). Your support is vital to the success of our program.

Thank You, Pasadena High School Model A Ford Club

## And The Winner Is!

By Wilbert Smith Ph.D. Technical Advisor

Pasadena High School Model A Club's (PHSMAFC) third car raffle was a success. Our winner, Richard Alexander, Lompoc California, was elated stating, "This is the first time I have ever won anything. I am surprised at how beautiful the car turned out."

Richard has been a strong supporter of the high school club since its inception in 2016. PHSMAFC is proud to be the only high school club operating on a high school campus. Our students grades nine through twelve, experience historical operation and restoration, including engine, transmission, auto body repair and paint, upholstery, and general assembly.

The club is one of the most popular after school programs. It meets weekly and is funded one hundred percent by generous donations and its car raffle whose entries are primarily purchased by MAFCA clubs and members. The club is directed and advised by a very capable volunteer staff.

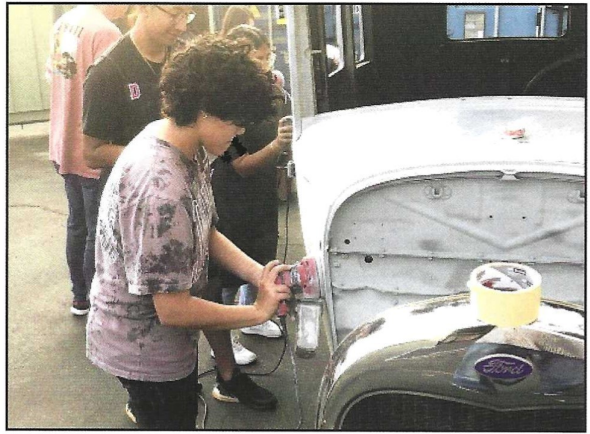

*Congratulations to Richard Alexander, Lompoc CA, who won a newly restored 1929 Model A Murray Sedan.*

*Fall 2022 Model A Club grade nine through twelve.*

The club's community partners include Pasadena Community College's Automotive Technology Department, Safelite Auto Glass, Sardo's Upholstery, Caliber Collision, and Fix Auto, each company residing in the local Pasadena community.

"This is fun", says club president Amy Castillo who also says, "the joy of being in the Model A club is getting together with fellow students to learn about the Model A. I hope to own my own Model A someday." The club is starting its fourth Model A restoration and has begun offering raffle entries for its 1930 maroon and black coupe. More details to follow as we get closer to our mid-year, 2023 drawing.

*Auto body restoration*

*Our students in action.*

## **We continue to need your support**

We are not funded by the local school district and rely solely on donations and the proceeds from our raffle. For each one hundred dollars (\$100.00) contributed, the donor receives one raffle entry. Odds of winning are fabulous, given we limit the number of entries sold. We encourage those who can purchase multiple tickets to kindly do so. We express our sincere gratitude for each of our supporters.

Please address your tax-deductible donation to: PHSM AFC, 1968 Lake Ave, Suite 101, Altadena Ca. 91001. Kindly include a stamped, self-addressed envelope along with your phone number and email address. Your entry will be return mailed to you. Clear printing is appreciated.

*Engine rebuild*

*Delivery*

*Paint booth*

We also accept credit and debit cards by calling 626-390-7322. Winners need not be present. We also encourage any tax-deductible Model A vehicle donation in reasonable restorable condition.

We are available at [phsmafc@gmail.com](mailto:phsmafc@gmail.com) to request an email version of this document.

The Sesquicentennial license plate to mark Wisconsin's 150<sup>th</sup> anniversary of statehood was made available only in 1997 and 1998. The plate's design used blue and greens and images of trees and fresh water to create a scene that reflects the state's varied resources.

# Looking back.....

Our final indoor meeting before the touring season was a presentation by Jim Draeger from the Wisconsin Historical Society. Jim wrote a book titled "Fill'er Up" a history of Wisconsin filling stations.

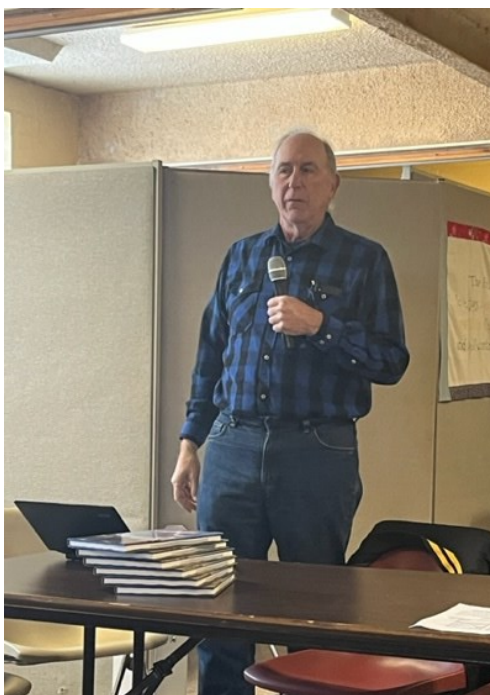

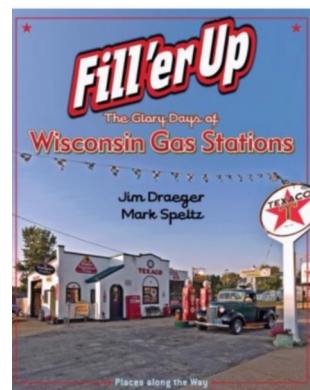

We learned about filling stations from the beginning and how they transformed over the years including the transformation from simply selling gas to full service stations and now our modern convenience stores.

We learned of marketing ideas in the early days when visible pumps were used and manufacturers would add color to their gasoline to grab people's attention. Some of the popular brands were Sunoco (Blue) and Shell (Yellow). Also the various building designs such as the famous Pagoda style, in fact one still stands on 76th and National in West Allis.

Thank you all for attending and next time you're filling up your vehicle remember how much engineering went into the canopy above you to keep it standing in all kinds of weather conditions.

Have a great touring season!
