Sharon Model A Day

Sunday June 5th

It's like going back in time when hundreds of Model A's take over the small town of Sharon. The town itself paints a picture of the 1930s with the sleepy small town look. With the small shops and old buildings, then add Model A's everywhere, an excellent swap meet, bands playing in the park and all kinds of food, its like stepping back 80 years.

The day starts in Sharon at 9:00 a.m. and if you want to find a choice parking area we will need to **leave the New Berlin McDonalds at Moorland & National Ave. at 7:30 a.m.**

Host: Randy Kind

Sunshine Report.....

Walt Kaufman spent some time in the hospital. He is now home recovering. We wish him a speedy recovery and return to normal activities.

Member Bob Lumley is recovering from heart surgery. Our thoughts and prayers are with him and his family as he heals and regains his strength. We hope to see Bob up and about soon.

As mentioned in the May newsletter, George Wartner passed away April 12th, in Arizona. A celebration of George's life will be held on Saturday, June 4, 2016 at Saint Patrick's Catholic Church, 515 Fair Street, Lodi, Wisconsin 53555, 1-608-592-5711. A commemorative mass will be held at 11:00 a.m. with burial of George's cremains to follow.

A bit of a dark cloud here as no one has shown an interest in helping out with the following opportunities:

Banquet (2017), Dave/Linda Huenink have volunteered to host. Karen Schmiechen has volunteered to run the silent auction - volunteers are needed help host as well as to provide auction items or donate cash for the purchase of items for the auction. Contact Karen at Kschmiechen@att.net or 262-544-5005.

Swap Meet (2017, it's never too early), need volunteer for the coordinator position as the Quam's have stepped down. Interested – talk to Mike or Sue

Need hosts for the December (Santa already available) and February Indoor meets.

Remember – many hands makes the work load light.

Please notify Bob Schmiechen with all sunshine needs. Call 262-544-5005 or email Robert_06@att.net.

Dear Friends,

Sunshine Report: Jim Wangerin was injured at work. It seems that some carpenters removed some plywood flooring from behind Jim and as he took one step back to observe his own work, found himself landing one floor down. A dislocated shoulder was the end result. Also, John Nalley has been laid up for about a month with his other leg. Hope that he is back to work soon and able to do more on his 'A'.

Junior: "What happens to automobiles when they get to old to run?"

Mother: "Someone sells them to your father."

The reason opportunity isn't often recognized is that it goes about disguised as work.

From The Back Of The Truck: For your information our chapter sends all the metro Ford dealers a copy of "Wheeling the A". So, next time you are at a local Ford dealership see if you can find out what happens to their copy. Do they put it out for the public? *(do we still send copies out to the Ford dealerships?)*

Technical check list.....

It does not seem possible that our Model A touring season is here already. Time flies when you are having fun. Did you get your car ready and service it before you started driving down the road this year?

You did make sure you greased your chassis.

Of course, you checked the tire pressure and made sure all your lug nuts were snug.

You checked your oil to see if it was O.K. or needed to be changed didn't you?

What do your points look like?

You did give that drop of oil to your distributor didn't you?

Does your radiator have enough water or antifreeze?

And, the list goes on and on.

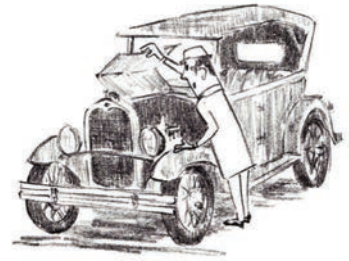

Remember, it is MUCH easier to go over you "A" in the driveway than on the road!

Jeff and I need to know what topic you would like to cover in our Tech Seminars which will be starting again in October. Please call and let either one of us know at your earliest convenience.

Presidents notes...

Not too much new this month. At our last board of directors meeting we decided to make our spring donation to the Flight for Life organization. Today Sue and I and our granddaughter dropped off the check and our granddaughter got a quick tour of the helicopter. Such friendly people working there.

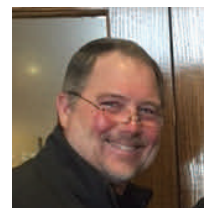

We are still in need of someone to take over the paperwork, reservations portion of the swap meet. Sue and I have "retired" from that and it will need to be filled soon. Getting ready for the swap meet starts in October and before we know it October will be here.

Karry is still in need of hosts for indoor meetings in December and February. If you'd like to host something different or fun, please let Karry know.

Hopefully summer gets here soon and stays for more than a day. We have some great tours coming up, make sure to check the newsletter for details and make sure you're A's are ready to roll.

Wishing everyone a safe Memorial Day weekend.

-Mike

Looking Back in the Rearview Mirror

Spring start up tour - FLIGHT for LIFE

On a beautiful spring day to shake the rust, pedal to the metal, gas and go, we did. We met at Oscars custard on Hwy 100, fueled ourselves and then we headed to Waukesha to The Flight for Life helicopter base. Thankfully it was not on a rescue mission, so we enjoyed a great tour.

This non profit organization gave our Model A group a complete visit of the history, staff, communication equipment and helicopters. The communications director has a big job taking calls, coordinating everything about the pending flight and where it will land and where it transport the patient to for the best medical help.

The helicopter has a crew of three, a pilot, nurse, and an EMT. The time the communication director gets the call to the departing of the helicopter is eight minutes. The staff is on duty 24/7/ 365 on twelve hour shifts.

Cost of the service is very expensive, but so is the cost of each helicopter which is about six million and around five hundred thousand for the small but well equipped emergency medical items.

We had a wonderful tour from Dennis Mohr, (a friend of Bob & Karen Schmiechen), of Crites Field and to view his own aircraft. Then to top it off, if you were able to climb the steps to the control tower you received a bonus to see the run ways and the lay out of Crites Field.

Then fifteen Model A,s and a few modern iron headed off on back roads to Marty's Pizza for fuel and refreshments. A group of approximately fifty five members were no longer running on empty.

Great Day, Great Friends, Great Cars.
Thanks from the Larson's
