Happy Holidays everyone,

I hope you all had a nice holiday season. I sure am glad we missed out on the snow-mageddon blizzard of December 2022! The cold is easier to shovel than the snow! Looking back on 2022 we sure had a fun filled busy year in the club and I'm sure we will have equally as much enjoyment in 2023. It's already shaping up nicely we have events planned but there are still opportunities available if you are interested.

Please remember the club banquet in January if you haven't sent in your reservation there is still time. Don't forget the January meeting if you want some of Milwaukee's favorite custard with all the toppings it's always a sweet time! Well that's it for now see you soon.

-Mike

# February Meeting, February 12th, 2023

## Guest Performer

Jessica Michna will be our guest speaker at our February meeting. After a career in teaching and healthcare, Ms. Michna turned to her first loves, American history and teaching. As a result she began her business called “First Impressions.” For the past 20 years she has used her acting and teaching skills to recreate notable women of history. Jessica can portray Presidential First Ladies and twelve notable women. She has also released a woman’s suffrage program and received the Presidential Service Center’s Distinguished Service Award. At our February meeting Ms. Michna will portray Laura Ingalls Wilder for us.

You may know Laura Ingalls Wilder from the long running TV show in the ‘70’s and ‘80’s called Little House on the Prairie. Or perhaps you know about her life by reading the book by the same title or “Little House in the Big Woods,” or “On the Banks of Plum Creek.” We look forward to Ms. Michna’s portrayal of this acclaimed woman and her warm, simple but picturesque, life.

# 'A' Trip Back to the Jan. 1988

1930 Ford AA Dually

The popular Ford AA Dually, like the Model A, was built from December 1927 thru December 1932. The big trucks used the same 40 hp four cylinder engine as the cars and shared many of the same parts. The chassis was a sturdier 131.5 inches, upgraded to a 157 inch wheelbase in 1930. The transmission consisted of either a three speed manual or a four speed that used a “granny” first gear.

The AA was available in a variety of configurations; a panel truck; stake truck and platform truck. The model 82-B closed cab truck (as pictured above) could be had with stock racks, grain boxes and stake racks. They could be configured as ice wagons, coal trucks, garbage trucks and a variety of dump trucks.

The Model AA transmission used a shifter with a safety lock-out lever activated by the thumb to engage reverse gear. The engine could also be crank started if necessary. The early trucks used a low-speed worm gear rear-end, later replaced with a ring and pinion differential that provided better highway speeds. Spoked wheels similar to the Model A cars, were used in 1928. Twenty inch six slot disc wheels were used in 1929, twenty inch five slot wheels in 1930 thru 1932. Stopping power was mechanical drum brakes on all four corners activated via a pull lever system.

Windshield wipers were originally hand operated and then changed to vacuum power from the intake manifold. As in the Model A, two levers on the steering column controlled the advance and retard of the timing, and the throttle. The choke under the right side of the dash also controlled the flow of fuel to the carburetor. Gauges were also the same as on the Model A car.

Suspension used a leaf spring centered in the front “A” frame over the front axle. Shock absorbers were for the front end only. The rear had leaf springs mounted to the chassis and attached to the rear axle.

During the Model A and AA production runs Ford built more than 480,000 AA models that saw the trucks serve as everything from ambulances to milk trucks to school buses.

**This month we feature 'Crabmeat casserole'** (Deb Lewis, from *Wi Chapter, "A" Road to Good Cooking*)

1 lb. spaghetti, cooked and cooled	2 lb. crab meat (or imitation)
1 lb. Velveeta cheese	8 Tbsp. parsley
1 c. margarine	1 small jar pimentos
1 pt. half and half	6 green onions, chopped

Preheat oven to 350 degrees. Cook spaghetti. In medium sauce pan, melt butter. Add half and half and the Velveeta. Heat until the Velveeta is completely melted.

Combine spaghetti, sauce, mushrooms(?), crab, parsley, pimentos and onions in a large baking dish. Mix everything well. Bake until casserole becomes bubbly, about 45 minutes.

# Waukesha Christmas Parade

On December 4<sup>th</sup>, 2022, the club participated in the Waukesha 59<sup>th</sup> annual Christmas Parade and the theme this year was “**PEACE ON EARTH**”. There were six decorated Model A’s from our club that participated in the event and I want to thank those who attended. The cars were decorated with wreaths, lights, candy canes, ribbons, bows, tinsel, stockings and Olaf. In addition, several members had Santa hats on. At the parade start it was 38 degrees and the Model A’s went through the parade purring like kittens with our signature Ahooga horns sounding all down the parade route. All of our decorations got us in the spirit for the holidays and showed our support for Waukesha. The parade had some changes this year - a date and route change along with additional security to keep everyone safe. There were more over all participants in the parade and the spectators where more interactive.

The event was news worthy this year in that several television stations were televising it locally and it could be seen worldwide. This parade recognized the loss of life and those injured at last years parade as well as a celebration of life – we are **WAUKESHA STRONG!!**

## PEACE ON EARTH TO ALL.
